

**IAJE MA UNIT  
HATCH SHELL ORDER OF BANDS  
MAY 10, 2008**

Your group is allowed 15 minutes. You should gear your program to be 10-12 minutes of music, and just use what is up there for general amplification and microphones. No time for sound checks or moving stuff around the stage. There will be no risers.

Paul Pitts has volunteered rhythm section equipment, however he is tied up with MICCA activities that day, and it will be tough for him. I am hoping some of you (especially those who have two or three groups participating....hint....hint...) can step forward and provide RS equipment.

I will have more information to you soon.
